

This is an animation that depicts downtown Hillsboro after the two-way conversion. The animation starts at Washington Street and travels down 1<sup>st</sup> Avenue to the intersection of East Main Street and 1<sup>st</sup> Avenue. The animation then travels further down 1<sup>st</sup> Avenue to the intersection of Northeast Lincoln Street. From there it travels down Northeast Lincoln and takes a right on Northeast 3<sup>rd</sup> Avenue, another right on East Main Street and then travels back toward 1<sup>st</sup> Avenue. Throughout the animation cars and pedestrians help illustrate the flow of traffic and what the current one-way streets would look like converted to two-way.
